ADVANCED MOTORCYCLE HELMETS AND ACCESSORIES

To keep your S.H.I.E.L.D.™ Transitions® SolFX™ visor functioning properly and in good working condition, please follow these suggestions and instructions.

- » Clean the visor with a microfiber cloth and mild soap and water.
- » Do not use harsh chemicals or detergents. Using a coarse cloth or rag may scratch your visor.

Warning

- » Do not leave your visor in direct sunlight when not in use. Doing so will degrade the longevity of your visor
- » S.H.I.E.L.D.™ Transitions® SolFX™ visors change quickly when exposed to direct UV light (sunlight) and go clear when out of direct sunlight. Photochromic performance is influenced by temperature, UV exposure and lens material.

CAUTION

When entering a tunnel or low light area, treat the S.H.I.E.L.D.™ Transitions® SolFX™ visor as you would a normally tinted or iridium visor or sunglasses. Lift the visor before entering or stop until your eyes are adjusted.

S.H.I.E.L.D.
